RAILROAD NEWS.

Gross earnings of United States railroads so far reported for June amount to \$24.471,161 and show an increase of \$38,886,987 over figures on the corresponding mileage basis for June, 1915. An idea of how the final figures for June will probably compare with the preceding May faures may be had when it is pointed out that the mileage so far reported for June amounts to \$69, of the total mileage for May, while gross revenues for June so far figured are roughly 15% of the May total. The present ratio of gain in gross for June is still somewhat below that shown for May, but the indications are that the June final figures show approximately the same ratio of gain as May when complete returns are in. In considering preliminary weekly figures for July it will be well to note that the combined reports of all important roads in July, 1915, showed an increase in gross for that month of one-third of 1% a mile as compared with July, 1913, and a decrease of \$9.9% as compared with July, 1913, and a decrease of \$9.9% as compared with July, 1915, showed a decrease in gross of two-thirds of 1% a mile as compared with June, 1914.

Institutions.

Agricultural and Live Stock Six Months Paper Reaches \$3,000,000 Total.

WASHINGTON, Aug. 5 .- The Federal Reserve Board's weekly bank statement, made public to-day, indicates a slight gain in aggregate gold feserves and a decrease on \$4,500,000 in the combined total reserves of the banks. Total earning assets of the system are about \$1,-500,000 less than the week before, largely the result of decreased amounts of ac-

the result of decreased amounts of acceptances on hand.

Chicago reports the largest gain in total reserves, mainly through the collection of outstanding balances due from other Federal Reserve banks, also through the increase in Government deposits and the liquidation of investments. New York and Boston show considerable decreases in their cash reserves, having turned balances due to other Federal Reserve banks into favorable balances during the report week.

Discounted bills on hand show an increase for the week of \$2.800,000, the present total of \$30,400,000 being the largest weekly figure since the first week of the present year. Boston shows an increase of \$2.100,000 in its holdings of discounted paper, Richmond and Minneapolis likewise reporting substantial gains under this head.

Aggregate holdings of agricultural and livered transports.

gains under this head.

Aggregate holdings of agricultural and live stock paper maturing after ninety days (six months paper) stand now at over \$3,000,000, or less than 10 per cent. of the total discounts on hand, as against 14 per cent, the week before.

Acceptances Decrease \$4,000,000. Acceptances on hand show a decrease of about \$4,000,000, all the banks except New York and Atlanta reporting smaller holdings than at the end of the preceding week. Of the total bills, including acceptances on hand, about 36 per cent. mature within thirty days and about 39 per cent. after thirty, though within sixty days.

sixty days.

There have been no material changes in the holdings of Government securities in the holdings of Government securities or municipal warrants.

Earning assets aggregate \$193,271,000, constituting over 350 per cent. of the banks' paid in capital, as against 353 per cent. shown the week before. Of the total earning assets acceptances form 41.1 per cent.; United States bonds, 24.9; discounts, 15.7; warrants, 14.2, and Treasury notes, 4.1.

Government and net member bank deposits show but slight changes in the posits show but slight changes in the

posits show but slight changes in the aggregate, though Chicago and New York report substantial increases in the amounts of Government funds held.

There was no change for the week in the amount of Federal reserve bank notes in circulation. Federal reserve agents report \$175,551,000 reserve notes outstanding, against which they hold \$162,184,000 gold and \$15,993,000 paper. The banks show a total circulation of The banks show a total circulation of Federal reserve notes of \$152,786,000 and aggregate net liabilities of \$11,029,000 on notes issued to them by agents.

500 Barrel Well

Well No. 2 brought in on our Lost Soldier lease in Wyoming. In this second well we struck the sand at 390 feet and drilled without any change to 480-90 feet of oil bearing sand. Before shutting the well in we ran the bailer for some time, bailing oil out at the rate of from 20 to 25 bbls. per hour and the oil gaining in the hole all the time. This well is good for 500 bbls. a day now and it is hard to estimate what it will do when drilled deeper.

—NOAH F. CLARK (President Omar Oil & Gas Co.)

Omar Oil & Gas Co.

Now Has 14 Producing Wells

Further drilling is now under way, not alone in the Lost Soldier Field, but also in West Virginia, Kentucky and Texas, and the announcement of additional production may be expected with certainty at any time.

Mr. Clark advises that within the past few days he has secured several thousand acres of valuable leases, which have been added to Omar's already very large holdings. Information regarding these leases will be given out in due time.

During last week the aggregate transactions in Oma exceeded in number of shares any other stock dealt in on the New York Curb. In a broad and active market Omar has steadily advanced during the week from 59 to 75.

We recommend the purchase of this stock for much higher prices.

We Will Buy Omar Oil and Gas Outright on a One-third Marginal Basis or on Partial Payment Chas. C. James & Co. Danforth. Reaves & Co.

Missouri Crops Must Get Rain.

Cott.

Columbia, Mo., Aug. 5.—The present heat spell and lack of moisture throughout Missouri have produced unsatisfactory crop conditions, with the exception of hay, according to the report of the State Board of Agriculture. With rain, the report says, the crop may be good, but without it the prospects are poor.
